**FINELINE™** *aluminium framed doors*

- **PREMIUM** *finish & appearance*
- **CHOICE OF SOLID** *aluminium frames*
- **PRECISION** *mitre joints*
- **HUGE CHOICE** *of inserts*

Inspired by the **SLEEK DESIGNS** *popular in EUROPE*, the **LAMINEX® FINELINE™** range of **ALUMINIUM framed doors and drawers** offer a distinctively modern style. Allows for either a complete fit out, giving a **CLEAN, linear APPEARANCE** or just a few highlight panels to add an *exciting ACCENT* to any interior. Made to **EXACTING standards**, this premium product features high tolerance, *precision MITRED joints* and **SUPERB finish quality**. It is also scratch, stain, UV and heat resistant. Offering both **EXTREME durability** and a unique look. Laminex Fineline doors and drawers are backed by a 7 year limited warranty\* and are available in a range of **CONTEMPORARY decors** in both solid and glass inserts.

**The FINELINE difference.** The *solid aluminium frame* in Fineline doors and drawers is your guarantee that they are *built to last*. Unlike other products, the aluminium is not just a trim. Fineline frames, with *precision mitre joints*, have inherent structural integrity and do not rely on the insert panel or glass for their strength. Whether you choose a Finished Designed Timber Veneer, Lamiwood or Glass Insert, the *finish is impeccable* inside and out and is designed to stay that way.

The colours of the photographs depicted in this brochure are as close to the **LAMINEX FINELINE aluminium framed doors** range as photographic lighting and modern printing processes allow. **LAMINEX FINELINE aluminium framed doors** are marketed and distributed by The Laminex Group.\*Please obtain a copy of the terms and conditions of the **LAMINEX FINELINE aluminium framed doors** 7 Year Limited Warranty from The Laminex Group or visit [www.laminex.com.au](http://www.laminex.com.au). This warranty is in addition to any rights that may exist under the Trade Practices Act. Veneer products, including **LAMINEX Finished Designed TIMBER Veneers**, being partially comprised of natural timbers will react to direct and indirect light. Therefore, a change of the surface colour and appearance over time is a natural characteristic, not a defect. Additionally, heat and humidity will interact with light to accelerate the ageing process. If exposed to direct and strong light timber veneer products may undergo sudden and irregular changes from the original colour. As little as an hour's exposure may change the colour of timber veneer.
